About the LGBA Family Health and Wellness Expo: This annual event brings together a diverse group of businesses and non-profit organizations focused on improving the health and wellness of our community, and thereby increasing the economic vitality of our area. We hope this event contributes to increasing awareness and education of the various health and wellness resources available, as well as actively engages the residents of La Grange and its neighbors in a broad range of activities to live happier, healthier and more balanced lifestyles.

As the CDC states: *Good health comes not just from receiving quality medical care but from stopping disease before it starts. Good health comes from clean air and water, safe outdoor spaces for physical activity, safe worksites, healthy foods, violence-free environments and healthy homes.*
